PLAY IS NOT A LUXURY BUT A FUNDAMENTAL PART OF LEARNING

"The time has come for us to recognize why play is worth defending: It is essential to leading a happy and healthy life."

:: David Elkind, 2008 ::

GOT PLAY?

It is my joy and responsibility as a teacher to defend children's need for play so that they can reach their full potential. I have been teaching for more than 20 years and still LOVE it!

ADVENTURE

Every day at Happee Hollee's Preschool is a fun, new adventure filled with curiosity, wonder, celebration, exploration, and friendships. Visits from community helpers and monthly community service projects enhance their learning.

GROWTH

Our program helps children discover talents, spark creativity, inspire thinking, expand language, resolve conflicts, gain confidence, build relationships, learn compassion, and practice good manners...naturally.

WONDERLAND OF ACTIVITIES

ALL CHILDREN CAN LEARN

Every child needs and deserves love from adults who believe that they can learn and who want to learn alongside them. Education is not something you do *to* children; it is something to be experienced *with* them. I incorporate aspects of Creative Curriculum, Reggio, and Montessori with our child-directed program to foster children's love for learning and help them reach their full potential.
